REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

As discussed by applicant in the response filed December 28, 2005, US Pat. Pub. No. 2003/0039650 only teaches using a single agent selected from anti-CD3, anti-CD2, etc. to stimulate the proliferation of the T cell population. The reference shows several examples where only one agent is used and the claims only encompass using either anti-CD3 or anti-CD2 (see claim 16). Therefore, the reference does not anticipate the claimed invention. In addition, by continuing to emphasize that only one of these agents should be used at a time, the reference is considered to teach away from any motivation to combine anti-CD3 and anti-CD2 together because such a combination would be in direct contrast to the specific teachings of the reference. Therefore, the claimed invention is also not considered obvious based on US '650. Thus, the claimed invention is considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
